

**WEST·MARINE**

THE RIGHT SOLUTION SINCE 1969

**FIRST-CLASS  
MARINE AND  
INDUSTRIAL  
EQUIPMENT &  
SERVICE**

**West-Marine A/S in Esbjerg puts heart and soul into providing you with the best solution. Since its founding in 1969, West-Marine A/S has been in constant development – always focusing on the needs and demands of the customer.**

**Today, West-Marine A/S is a widely branched company offering mechanical service solutions and assistance, sales of equipment and spare parts for the marine sector, land-based industries, power plants, and the offshore industry – anytime, anywhere in the world, 365 days a year.**

# OUR SOLUTIONS

We offer repairs, service solutions, as well as sales of equipment and spare parts for industry, offshore, and marine.

## MARINE

Quality parts and equipment for the marine sector

## RESCUE

Delivery of complete rescue packages

## WIND & OFFSHORE

A reputation built on safety and quality

## GASKETS

Wide selection of packing and friction materials

## INDUSTRY

Strong supplier to the Danish industry

## SERVICE

Wide range of service tasks performed by experienced technicians

# MARINE EQUIPMENT

**WE OFFER A LARGE SELECTION OF MARINE EQUIPMENT – FOR ANYONE APPRECIATING QUALITY AND EFFICIENCY**

We offer quality and thoroughly tested products from recognized brands making life safer and more convenient at sea. We offer a range of products daily used by the marine as well as the offshore industry. With our base in Esbjerg, we have quick access to the airport, port, and highway, making it easy for us to provide unique service within marine equipment to our customers.

## **Our agencies on marine equipment**

For many years, we have had agencies for marine equipment adapted to the weather and wind at sea, thus we offer both service and delivery of high-quality marine products.

# OUR AGENCIES

## **NORSAP WHEELHOUSE CHAIR**

The Norsap chair is for you who demand high quality, fitness, design, comfort, and an ergonomically correct chair.

The ship chairs, primarily used by the marine segment as well as the offshore industry, are now also used in land-based industries.

## **AZCUE PUMPS**

Azcue Pumps are distributed in Denmark and Greenland by West-Marine A/S. The range includes a wide variety of pump solutions for the maritime sector, offshore industry, and industry segments.

Azcue Pumps manufactures all bronze pumps in their foundry. You can have centrifugal pumps, screw pumps, gear pumps, Vortex vertical pumps, and hydro-pumps produced either in bronze or cast iron.

## **HS.MARINE**

HS.MARINE cranes are designed specifically for operation in the harshest maritime environments, with a strong focus on safety, durability, and performance.

Their wide range of models includes telescopic boom cranes, knuckle boom cranes, and stiff boom cranes – all built in full compliance with the most demanding international standards.

# AGENCIES

## DASPOS LEAKAGE ALARM SYSTEM

The DASPOS Leakage Alarm System is an effective and innovative solution for preventing fires in ship engine rooms caused by oil leakage.

The system is patented and helps protect crew and material by warning of potential fires.

## RESTECH LINE THROWER

A reusable pneumatic line thrower from the Norwegian company Restech, designed for use both in industry and in the maritime environment.

The safety is optimal, which is why the line thrower can be used in environments with flammable liquids or gases due to the pneumatic propulsion – a new technology, whereas other systems use gunpowder

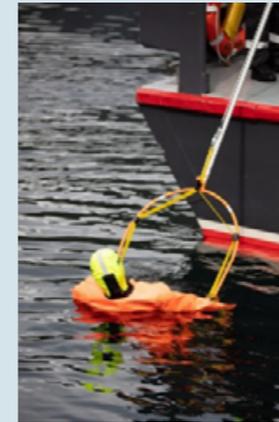

## SPEICH WIPER SYSTEMS

Speich wiper systems or windshield wipers are the ideal choice for those who appreciate good and high-quality solutions.

## SULA RESCUE SLING

A rescue sling is operated by a person rescuing a man who has fallen overboard – without the rescuer having to get into the water. The rescue sling is a very effective piece of man-overboard rescue equipment. The device is easy to use and very efficient.

## YAMAHA OUTBOARD ENGINES

Yamaha outboard motors are known for their high performance, quality, reliability, and longevity. We both sell new engines and use genuine spare parts, ensuring that your engine retains its value and operates better.

## NTORRERIO FRESHWATER GENERATORS

The freshwater generators from Ntorreiro improve water quality by filtering out lime, stones, or harmful substances such as mercury or nitrate. An effective product that enhances water quality and provides the cleanest water you can get.

## KOBELT MARINE CONTROL SYSTEMS

Kobel's control systems are known for their durability and performance.

The systems are tailored to specific needs with the aim of increasing your safety and enhancing your sense of controlled steering.

# RESCUE EQUIPMENT

## DENMARK'S LEADING SUPPLIERS OF RESCUE EQUIPMENT AND PARTS

As a supplier of rescue equipment and safety gear for the maritime sector and offshore industry, we maintain a high standard with a focus on safety approvals and annual servicing. You'll find a wide range of products in rescue equipment at West-Marine in Esbjerg, and with our many years of industry experience and strong brands, we can advise you when selecting rescue equipment for your vessel.

We can handle the entire project management and provide a solution, saving you both time and money. We ensure that the solution meets your requirements when you need to find the best solution, whether it's for expeditions, fishing, shipping, or the offshore industry.

# OUR PRODUCTS

## SURVIVAL KITS

With our survival kits, you are prepared for all emergencies at sea, on a hike, or on a wind turbine. Our survival kits are delivered in a durable HDPE barrel with a galvanized steel ring and a seal for secure storage. The barrel is also equipped with reflective material for high visibility in emergencies. Additionally, you can also choose our survival kits in bag or backpack form.

## OUR OTHER PRODUCTS

- Emergency fire pump
- Rescue stretcher
- Steering cables

# WIND & OFFSHORE

**WE ARE A DANISH SUPPLIER OF PRODUCTS AND SERVICES TO THE WIND AND OFFSHORE INDUSTRY**

West-Marine provides cost-effective solutions to companies operating within the gas, wind, or oil sectors. We offer a wide range of services and products for the offshore industry, including service and repair of maritime products, marine cranes, SafeTransfer - personnel baskets, and survival kits. For West-Marine, our work in the offshore sector is associated with words like quality, responsibility, reliability, precision, and safety. We thereby guarantee high quality in all our solutions. Geographically, with facilities in Esbjerg, we are well-positioned to cover the entire North Sea as well as the rest of the world.

# GASKETS

**DANISH MANUFACTURER OF GASKETS AND FRICTION MATERIALS FOR ALL APPLICATIONS**

With 40 years of experience in gaskets, seals, O-rings, industrial textiles, brake, and clutch linings, there is know-how and expertise behind our quality advice provided by Europack, a division of West Marine A/S.

We have a wide range of gasket materials, many of which are stocked and supplemented by our production of custom-made gaskets according to drawings. Tell us about your needs, and we'll find a solution that meets your requirements for both delivery and quality. Urgent orders can be delivered very quickly - often on the same day.

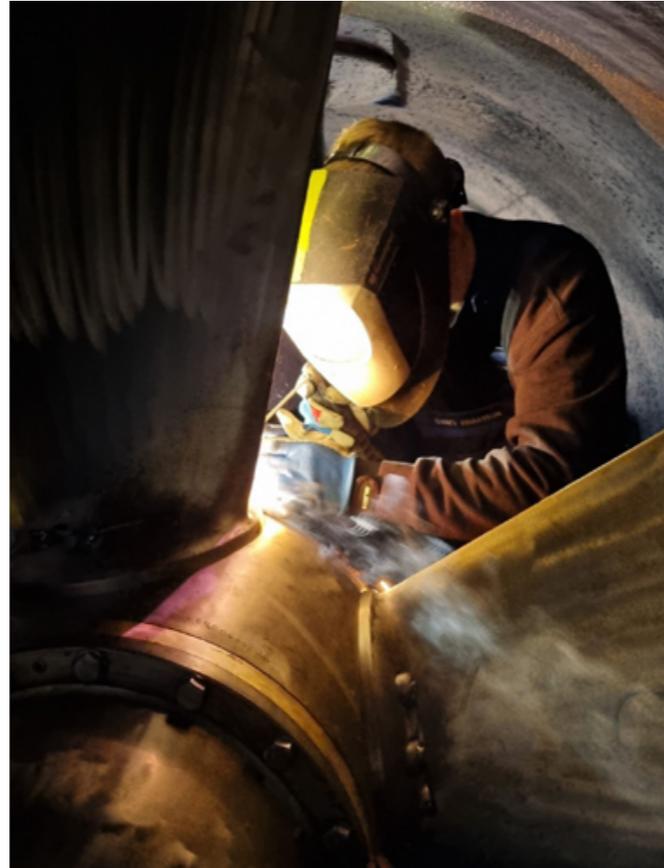

# SERVICE

## SERVICE AND REPAIR OF INDUSTRIAL AND MARINE EQUIPMENT

Industrial and marine equipment needs to be serviced regularly - for the sake of product safety and longevity. If you need repairs, retrofitting, or any form of service, it is carried out by West-Marine A/S either in our workshop, on the ship, or on the rig itself - anytime and anywhere in the world.

Our skilled employees have extensive knowledge and experience in service and repair of equipment for both marine, offshore, and industry. Additionally, we are the country's leading experts in thrusters.

## 24/7 Emergency Service

We are available by phone 24 hours a day, 7 days a week, 365 days a year. We assist you at all hours of the day when a thruster, engine, crane, or pump stops working.

If you want your products to be fully functional every day, it's a good idea to have them serviced regularly. Statistics show that products serviced at regular intervals have a longer lifespan. With regular service, you can always rely on both functionality and safety – and there are also economic benefits.

## Service Vans with special tools

We have several vans that are always on the move. Our service vans are equipped with auxiliary tools and the most used spare parts. When we travel abroad, it is in close cooperation with you, who request us to work on, for example, a drilling platform or a ship.

# SERVICE & WORKSHOP

## SERVICE ANYWHERE, ANYTIME

We are on the phone 24 hours a day, 7 days a week, 365 days a year. We help you at all times of the day when a thruster, motor, crane or pump no longer works.

If you want products with full functionality every day, we recommend having them serviced at regular intervals. Statistics show that products that are serviced at fixed intervals have a longer lifespan. With regular service, you can always rely on both function and safety – with added financial benefits.

## Service vehicles with special tools

We have several vehicles that are always on the move. The service vehicles are equipped with auxiliary tools and the most used spare parts. When we travel abroad, we have a close cooperation with you who request us for a job on, for example, an oil rig or a ship.

# SAFE TRANSFER

## YOUR SAFETY IS OUR NUMBER ONE PRIORITY

Safe Transfer is part of West-Marine, and together we are on a mission to offer the safest offshore solutions for the transfer of employees. Our safety baskets are designed to ensure efficient transfers of employees between offshore installations, oil rigs and ships. The safety is high, and our unique baskets are therefore made in a sturdy, non-collapsible design made of AISI 316L stainless and shock-absorbing for improved protection.

## High quality

We are very proud to have passed the thorough evaluation by Bureau Veritas Certification and have earned their trusted mark of reliability, sustainability and trust. Our first-class safety basket demonstrates our expertise and commitment to excellence. As a member of the Achilles JQS system, we have undergone a comprehensive procurement evaluation that ensures our compliance with relevant EU procurement directives, while reflecting our commitment to quality.
